Professional Summary

Full Stack Web Developer with 5+ years of experience building scalable, high-performance applications using **MERN Stack**, **Next.js**, **React Native**, **ASP.NET MVC**, and **WordPress**. Skilled in **RESTful API** development, third-party integrations, and creating responsive UIs with **Tailwind CSS** and **Redux**. Delivered 35+ production-ready applications achieving **30% performance improvements** and **99.9% uptime**. Passionate about clean code, user experience, and solving business challenges.

Core Competencies

Full Stack Development	MERN Stack, Next.js, React Native, RESTful APIs
DevOps & Cloud	AWS (EC2, S3), Docker, CI/CD Pipelines, GitHub Actions
Performance Optimization	Code Splitting, Lazy Loading, Database Query Optimization
Methodology	Agile/Scrum, Cross-functional Collaboration, Version Control (Git)

Technical Skills

Frontend:	React.js, Next.js, **React Native**, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Redux
Backend:	Node.js, Express.js, ASP.NET MVC, RESTful APIs, JWT Authentication, Passport.js, GraphQL (Basic)
Databases:	MongoDB, PostgreSQL, MySQL, SQL Server
DevOps & Tools:	Docker, AWS (EC2, S3), CI/CD, Git, GitHub, Vercel, Render, Netlify, Jest, Firebase, WordPress, Postman, Figma

Work Experience

Creativemark   **Aug 2025 - Present**

Full Stack Web Developer   *Riyadh, Saudi Arabia*

- Designed and developed **scalable SaaS platforms** using MERN stack (React.js, Express.js, Node.js, MongoDB) and, serving **1K+ daily active users**
- Built and maintained **RESTful APIs** with Express.js enabling secure data exchange and seamless system integrations
- Implemented **JWT authentication**, optimized MongoDB queries, and reduced server response time by **25%**
- Containerized applications with **Docker** and automated deployments via **CI/CD pipelines (Git, GitHub Actions)**
- Collaborated with cross-functional teams in an **Agile/Scrum** environment to ensure on-time delivery of high-quality software solutions

Eccentric Technologies Pvt Ltd   **Aug 2022 - Nov 2024**

Full Stack Web Developer   *Riyadh, Saudi Arabia*

- Developed enterprise-level **web applications** with React.js, Next.js, Node.js, improving overall system performance by **20%**
- Integrated **third-party APIs**, optimized backend services for **scalability and security**, and managed deployments on cloud environments
- Leveraged **Docker** for consistent environment setup, reducing deployment errors by **30%**
- Improved project delivery timelines through effective use of **Git/GitHub version control** and Agile methodologies
- Built reusable UI components with Tailwind CSS, enhancing maintainability and speeding up development cycles

Mazhar Enterprises Pvt Ltd   **Feb 2020 - Jun 2022**

Full Stack Web Developer   *Peshawar, Pakistan*

- Developed **10+ responsive web applications** using React.js, Next.js, boosting user engagement by **30%**
- Designed and deployed **RESTful APIs** (Node.js/Express + MongoDB), handling **5K+ daily requests** with 99.9% uptime
- Enhanced application load times by **30%** using code splitting, lazy loading, and dynamic imports, improving SEO and performance
- Implemented **cross-browser compatible UIs** with Tailwind CSS and optimized deployments with **Git/GitHub workflows**
- Collaborated in Agile/Scrum teams to deliver scalable solutions while maintaining high code quality standards

Projects

Herbie - E-Commerce Store   *React.js, Node.js, MongoDB*
Live Link   —   GitHub Link
- Developed **herbal product store** with React.js, improving UX via intuitive navigation
- Integrated **RESTful APIs** (Node.js + MongoDB) for product management and user authentication
- Optimized performance by **25%** using caching strategies

School Management System   *React.js, Node.js, MongoDB*
Live Link   —   GitHub Link
- Built system to automate **student records, attendance, and exam management**
- Implemented **role-based access control (RBAC)** for admins, teachers, and students

Creativemark Business Management System   *Next.Js, Express.Js Node.js, MongoDB*
Live Link   —   GitHub Link
- Built a comprehensive **Company Licensing Management System** with distinct dashboards for **Admin, Client, Employee, and Partner** roles using Next.js, Node.js, Express.js, and MongoDB.
- Implemented an intelligent workflow where when a **Client submits an application**, an automatic **payment plan** is generated with options for full or installment payments.
- Developed a system where the **Admin assigns applications to Employees** for processing, enabling step-by-step progress tracking and task updates.
- Integrated a **receipt upload feature** allowing clients to submit payment proofs securely, followed by admin verification and status updates.
- Enabled **real-time application tracking** for clients and role-based notifications to ensure seamless coordination between admin, employees, and partners.
- Designed a clean, responsive UI with **Next.js and Tailwind CSS**, ensuring a user-friendly experience for all role types.

Eccentric Technologies Dashboard   *React.js, Next.js, Node.js, MongoDB*
Live Link   —   GitHub Link
- Developed a **SaaS management dashboard** for Eccentric Technologies with React.js and Next.js
- Integrated real-time analytics and reporting using MongoDB and RESTful APIs
- Implemented **role-based access and secure authentication** for multiple user types
- Optimized frontend performance with lazy loading and code splitting, improving load times by **30%**

Education

Abdul Wali Khan University (AWKUM)   **2016 − 2020**
Bachelor of Science in Computer Science   *Timergara, Pakistan*

Certifications

Full Stack Web Development Bootcamp – Dr. Angela Yu, Udemy, Feb 2022

Certificate of Appreciation – Abdul Wali Khan University, Sep 2022

Experience Certificate – Mazhar Enterprises Pvt Ltd, 2020 – 2022

Experience Certificate – GEER ICT Solutions, 2022 – 2023

Experience Certificate – Eccentric Technologies Pvt Ltd, 2023 – Present

Languages

English (Fluent), Urdu (Native), Pashto (Native), Arabic (Basic Communication Skills)
